Fuel: 320

Water: 40

Holding: 5

#### Overview

Deep Impact boats are the most finely finished and best performing offshore center console on the market today. Roomy cockpit, large helm and loads of forward seating make this roomy 36' one of the most accommodating hardcore fishing machines on the market. The 360 design features a double step hull for increased lift and reduced drag. The interlinear and hull sides

are cored with Mantex and Divenicell to eliminate vibration and noise. The boat has a single piece bow to stern deck that is laminated to the hull making it the strongest center console on the market. This boat can handle just about any sea conditions and reach a top speed close to 70 MPH. All Deep Impact boats offer superior styling, this has no visible screws or fasteners. It has seating in the bow, a large hydraulic sun pad in front of the console and seats in the cockpit. The head is located in the V FWD. This boat is designed to be as open as possible with plenty of space to move around for even the most hardcore fisherman. The boat has several huge fish boxes and plenty of below deck storage.

Reel Adventure is a boat that has been stored inside, very nicely equipped and in excellent condition. She s turn key ready to take you fishing, diving and island hopping with her great performance and smooth ride. A real must see in a large offshore center console.
