US\$ 175,000 (09/10)
- Located in Hampstead, NC
- Hull Material: Fiberglass
- Engine/Fuel Type: Twin Gas
- YW# 77713-2263315

CLEANEST 38 LIGHTNING ON THE MARKET !

ONLY 73 HOURS ! LOADED WITH OPTIONS ! FAST !

Decades of shock and awe on the race course have come down to this: a dominating racing legacy slickly packaged as the Fountain Lightning, an ultra-performance boat that has won numerous world and national racing championships.

Powerboat Magazine named it the 2007 Offshore Boat of the Year! To this very day his boats set the standard for every other boat builder to aspire to. Start with Reggie Fountain's legendary pad keel, notched transom, and positive lift hull. Then add staggered engines to move the center of gravity down toward the keel where it does the most good, then SCHAZAM, a fast and stable, great handling boat.

She is powered with Mercury Racing 525EFI engines with state of the art Bravo 1-XR drives, with short Sportmaster drives and ITS gimbals. She will hit 96 mph.

The interior of this boat is as comfortable as your living room couch. This vessel has been stored at the Fountain factory, and was cared for by the Fountain staff until it was brought to us to sell. The owner has very rarely used the vessel, but when he did it was detailed and put back inside storage. She is sitting on a \$13,000.00 Myco Aluminum Trailer that has traveled only about 50 miles. She has a cockpit cover, as well as a GPS.

This is a driver's boat with a stable, safe, comfortable ride with race boat performance. If you are a performance boater, looking for a really special boat, and will only settle for the very best, this boat is for you. We have lowered the price over \$50,000.00 so now the price is right !!!
